ARE ALL EYES

DEFECTIVE?

Certain it is that many people experience no trouble with their eyes. Naturally a very large proportion of those who consult opticians or oculists have defective eyes, because the trouble they have leads them to the consultation.

There have been quite a number of people in to see me of late who have nothing at all the matter with their eyes.

If you have any doubt as to the condition of your eyes it will afford you a great deal of satisfaction to know positively. I shall be glad to tell you.

HIGH TONED ANIMALS.

That Sleep in Palace Cars and Wear Clothes.

The best cared for lot of animals in the world are probably the dog and pony members of Prof Gentry's famous dog and pony show which will exhibit under canvas in this city on Tuesday, October 31, on Walker avenue near Ashe street, at 2:30 and 8 p. m.

They travel in palace cars and are as carefully watched over as though they were children. The most aristocratic member of the company is Pinto, the tiny elephant. He wears a suit of clothes and a hat whenever he is exposed to the elements. The hat was constructed especially for him and measured in size 21 His clothes were made by a fashionable tailor and he is in every respect a swell. The prices of admission are, children 15 cts., and adults 25 cts.

Governor Russell Petitioned.

Mrs. W. C Orrell, mother of Ed. and Arthur Orrell, who were convicted of house-breaking at the spring term of superior court and sentenced to twelve months each on the county roads, left on the morning train for Raleigh. She had in her possession a petition which she will present to Gov. Russell praying for the release of her sons.

The young men left the state last summer and when they returned this week were arrested and sent to the roads to serve out their sentences.

HEROIC INCIDENT OF THE WAR

Seven Boers Give their Lives to Save their Comrades—Engaged the Imperial Light Horse Alone.

By Cable to the Telegram

London, Oct. 27—Cable advices today confirm the report of the successful sortie from Kimberly. All is reported quiet at Ladysmith.

A SMALL ENGAGEMENT.

Cape Town, Oct. 27—Official reports from Kimberly, dated Tuesday, state that Col Scott-Turner, with 200 men, proceeded northward to MacFarlane's farm, where they unsaddled their horses. A party of Boers on their right flank was quickly scattered, several Boers being killed. The enemy moved to a sand heap and opened fire, which the British returned The British attempted to prevent the Boers advancing against Col. Murray, but were met with a heavy fire from the dam-wall. An armored train supported Col Scott-Turner. Col. Murray opened upon the Boers with two field guns and two Maxims The Boer artillery was brisk. Another armored train was held in readiness by the British, and later sent forward with additional ammunition.

The British loss was 3 killed and 21 wounded. The engagement was a brilliant British success.

AT GLENCOE.

Pretoria, Oct. 27—The Boer government admits the loss of 243 of their numbers taken prisoners at the battle of Glencoe.

COMMONS CLOSES.

London, Oct. 27—The queen's speech dissolving parliament congratulates the members on the brilliant qualities displayed by the brave regiments in South Africa, and expresses profound sorrow at the loss of so many gallant officers and soldiers. The commons closed its session at 3 o'clock this afternoon.

A HEROIC INCIDENT.

Durban, Oct. 27—The most heroic incident of the Elandslaagte fight, is reported here. When the fire of the British guns became too hot, eight Boers ran forward out of cover and, standing together, coolly opened fire upon the Imperial Light Horse, with the evident purpose of drawing the latter's fire while their comrades retired. Seven of the eight were killed.

BRITISH REINFORCEMENTS.

Ladysmith, Oct. 27—Reinforcements consisting of infantry and guns arrived today from Pietermaritzburg, raising ing the total strength of the British forces here to twelve thousand with 54 guns.

BOERS OCCUPY DUNDEE.

London, Oct. 27—A Pietermaritzburg dispatch, dated 24th, says:

"Nine hundred and thirty-eight Boer prisoners arrived this morning."

An official message received states that the Boers have occupied Dundee and looted the stores of individuals. The British wounded were not harmed. They were left at Dundee in the care of Boer surgeons and are reported doing well.

WILL OPEN TOMORROW.

Durban, Oct. 27—Marines and Blue Jackets placed in charge of the Durban branch of the Transvaal Bank were withdrawn today after the premises had been searched. The bank will open as usual tomorrow.

PROMINENT BOER KILLED.

London, Oct. 27—Boothe, the Boer commander, was among the killed resulting from the British sortie at Kimberly. He was a member of the volksraad and a famous Dutch fighter. He distinguished himself as a marksman at Brenkhorst Spruit, when the Ninety-fourth British regiment was mowed down. Afterwards he defended a farm house. When surrendered he was found suffering from five wounds and bathed in blood.

LEFT ALONE WITH HIS GLORY.

Cape Town, Oct. 27—Gen. Symons was buried close to the English church at Dundee.

The chief medical officer at Dundee reports all the wounded cheerful.

News From Manila.

IMMENSE CROWDS

Attended the Horse Show at Winston Yesterday.

Nearly one thousand people from this city attended the horse show at Winston yesterday. The crowd at the park in the afternoon was estimated at 10 000.

Excursion trains from Charlotte, Mt. Airy and Wilkesboro were heavily loaded, and carriages and other vehicles full of people from the surrounding country, swelled the already great throng of humanity.

The train to the fair grounds was run as a double header, with fifteen cars, making trips all day, and was filled to overflowing each time.

The floral parade at the park was a gorgeous success and won the highest plaudits of the thousands who witnessed the magnificent scene.

Prizes were awarded the exhibitors in the cattle department of the county fair yesterday afternoon.

At the request of Secretary Webb several midway attractions, commonly known as fakirs, were closed up by the authorities Wednesday afternoon.

The race program yesterday was an attractive one and furnished good sport. The 2:18 class was hotly contested and every heat fought from wire to wire. Joseph Lassiter's Firewood, driven by W. L. Bass, won the race and now holds the track record as a trotter at Raleigh and Winston.

The program of the races today is an excellent one and some pretty races will be had.

OVER THE WINSTON 'PHONE TODAY.

A large crowd is out at the park this afternoon. The horse show and carnival will close tomorrow afternoon with an old-fashioned tournament at 2 o'clock. The county fair and the horse races close this afternoon.

The park association hopes to get the N. & W. to run a sidetrack to the park by next year, and the street car line will probably be extended to the park.

A grand german will be given tomorrow night, when the queen will be crowned. A delightful dance was given last night.

J. W. Griffith, of Mt Airy, claims that four negro men and a negro woman robbed him of $150 last night.

Mrs. Minnie Maiden, of Colfax, died at the Twin-City hospital last night. She leaves a husband and four children.

Dan Packard Opera Company.

The Petersburg, Va., Evening Post has the following flattering notice of the Dan Packard opera company during the engagement in that city recently:

"If the Packard Opera Company fails to draw crowded houses every night this week, it will not be the fault of the company. Last night the "Mascot," as presented by this company, was thoroughly enjoyed. The singing was excellent, the acting good and the comedians fine. It is such a company as commands a $1 50 admission at one night stands, and the wonder is that the management here was enabled to set such a low price of admission."

The same company appears at the Academy of Music on next Monday, Tuesday and Wednesday, opening with the "Mascot," to be followed by other popular operas.

Seats are on sale at Farriss' drug store. Prices 50 and 75 cents.

Church Dedication Sunday.

As has been previously stated in these columns, the dedication of St. Benedict's Catholic church will take place Sunday, the 29th. Five priests will attend, and Bishop Hay, of Fremont, N. C., will preside. The celebration will last for two days—Sunday and Monday. It is expected that a large number of Catholics from Charlotte, Salisbury, Winston and Reidsville will be present.

Dispensary Case Tomorrow.

Hon. John N. Wilson will leave tonight for Raleigh to appear as counsel for the managers in the Greensboro dispensary case, which will be called in the supreme court tomorrow morning. Owing to the large docket this will be the only one of the nine cases from Guilford county that will be disposed of at this term.

M'KINLEY WILL ATTEND

The Launching of the Torpedo Boat Shubrick, at Richmond.

TWO PROMINENT SENATORS

Vest of Missouri and Mallory of Florida, Who Have Both Been Quite Sick, Improving.

Special to The Telegram.

Washington, Oct 27—The launching of the new torpedo boat, Shubrick, at Richmond, Va., next Tuesday, will be a notable occasion. A large delegation of Washington people will be present. Among the party from this city will be President McKinley, who was prevailed upon by the Richmond people to be their guest on the occasion. Among others who will accompany the party will be Secretaries Long, of the navy, Gage, of the treasury, and Attorney General Griggs. Secretary Hay will in all probability not be able to accompany the Presidential party, as the business of the state department is pressing him rather closely just at this time. Postmaster General Smith is campaigning in Ohio for Judge Nash, and so will probably not attend. Secretary Hitchcock is also not in Washington.

The presidential party will leave Washington next Tuesday morning, and will go to Richmond by special train, accompanied by members of the invitation committee and by two or three newspaper correspondents. The invitation to the party was extended by the city council of Richmond, so the party will be guests of the city during their stay. After viewing the launching of the Shubrick, the party will be entertained at lunch and driven to various points of interest in Richmond, including a visit to the historic Libby Prison, which is one of the interesting relics of the late war. Owing to the fact that the president is very busy with his official duties, he will not be able to remain in Richmond more than one day, so the party will return to Washington by the special train Tuesday night The visit of the president to Richmond will be a notable occasion, and it is said that Mr. McKinley will be the first president to visit Richmond since the presidency of Lincoln.

Senator Mallory, of Florida, who has been quite ill, is reported to be much improved, and it is thought that he will be able to leave the hospital in a few days. He will take a trip to Florida after he is able to leave the institution

Senator Vest, of Missouri, who has been quite a sick man, is reported as improved. During the last session of congress the Missouri statesman was not at all well, and his condition has caused considerable alarm among his friends. The senator is now in Florida, spending the time intervening before the recess of congress expires at the beautiful Florida estate of Senator Quay, of Pennsylvania. He has been at the home of Senator Quay for some time, and his friends say that the climate of Florida seems to agree with him better than the climate of either his own home, or that of Washington city. Unless the health of Senator Vest materially improves, it is doubtful as to whether he will be able to come to Washington at the beginning of the coming session of congress.

K. Kemper, of Virginia, who is spending the fall in Mississippi, it is said in letters received in this section, is again quite sick. Mr. Kemper is a brother of Hon. Delaware Kemper, the well known Virginian, who was consul during the Cleveland administration to Amoy.

P. F. Ables, of South Carolina, has been chosen chairman of the executive committee of class officers of the school of comparative jurisprudence, and diplomacy, of the Columbian College, of this city.

William L. Scruggs, of Atlanta, Ga , is in the city. He was formerly minister to Venezuela, and was in Washington, for many years, being an agent and attorney for the Venezuelan government. While in Washington he is stopping at the Riggs House

Captain Lamb, of Richmond, who is a supporter of Senator Martin, says there is no doubt but the senator will be re-elected to the United States senate. He makes the significant statement, however, that ninety per cent of the Virginia people are in favor of the election of senators by a direct vote of the people.

Judge Waddill, and other Virginia republicans who have been here for the past few days, in connection with the extending of the invitation to the president to visit Richmond, say that the Virginia republicans will not take any active part in the voting in the state one week from Tuesday. They are of the opinion that as many republicans will vote with the democrats, as with the independence.

The site of postoffice at Bentonville, Johnson county, has been moved three miles south.

A number of people from Rocky Mount, North Carolina, were at the St James Hotel yesterday. Among them are S W. Skinner, Mrs L. H. Skinner, Mrs S. W. Gentry, Mrs. Whitlock and Miss Maggie Moore.

WANTS A CROSS ON THE FLAG.

Bishop Cheshire Says the Negroes Grow Worse.

St. Louis, Mo., Oct. 26—Today's session of the Missionary Council of the Protestant Episcopal church at St Peter's, began with the usual religious services, at the conclusion of which Bishop Tuttle, of Missouri, introduced a resolution asking for the expulsion from the national house of representatives of Brigham H. Roberts, of Utah.

Bishop Whipple, the presiding officer, ruled the resolution out of order, saying that the council had met for a specific purpose and could not consider outside matters.

In the course of an argument on a resolution to make a rule requiring stated contributions to the missionary fund, which was defeated.

Rev. W. McKnight, of Elmira, N. Y., commented on the advantages the English church has over the American Church because of its connection with the government; and intimated that he would like to see the union of the church and the state in this country.

"I think our flag would look better if it also had a cross on it," he said

The report of the woman's auxiliary showed collections of $49,318 for the year.

Bishop Gaylor, of Tennessee, read the report on the missionary work done among the colored people.

Bishop J. E Cheshire, of North Carolina, in discussing the report, said the colored people were growing worse instead of better. It was not expected, he said, that people set free because of a political necessity should not retrograde under the weight of responsibility they were not prepared to assume.

The resolution on the report declaring the appropriation of $62,000 insufficient and recommending the appointment of a field secretary was adopted.

The report of the American Church Missionary Society urged the propriety of making larger appropriations for the work of the church in Cuba, where, it is estimated, there are 50,000 orphan children.

Rev. E. Estill said:

"If this island does not become the property of the United States, which I hope it will, it certainly will become part of the territory of Jesus Christ."

This afternoon the house of bishops met for the purpose of acting on the matter of selecting a bishop to Japan, and considering the advisability of giving Hawaii and Porto Rico bishops.

A HISTORICAL PARALLEL.

In his anti-imperialistic address at Chicago last week, the Hon. Carl Schurz made the following impressive point:

"Imagine that, in our Revolutionary times, France being at war with England, had brought to this country a fleet and an army, and had, without any definite compact to that effect, cooperated as an ally with our Revolutionary forces, permitting all the while the Americans to believe that she did this without any mercenary motive, and that, in case of victory, the American colonies would be free and independent. Imagine then that, after the British surrender at Yorktown, the king of France had coolly notified the continental congress and Gen. Washington that they had to give up their idea of national independence, and to surrender unconditionally to the sovereignty of France, wherefor the French king promised them 'benevolent assimilation.' Imagine, further, that upon the protest of the Americans that Great Britain, having lost everything in the colonies except New York city and a few other little posts, had no sovereignty to cede, the French king answered that he had bought the Americans at $5 a head, and that if they refused to submit he would give them benevolent assimilation in the shape of bullets. Can there be any doubt that the continental congress and General Washington would have retorted that, no matter what the French king might have bought, Great Britain had no sovereignty left to sell; that least of all would the Americans permit themselves to be sold; that the French, in so treating their American allies after such high-sounding professions of friendship and generosity, were a lot of mean, treacherous, contemptible hypocrites, and that the Americans would rather die than submit to such wolves in sheep's clothing. And will any patriotic American now deny that, whatever quibbles of international law about possible cessions of a lost sovereignty might be invented, such conduct of the French would have been simply a shame, and that the Americans of that time would have eternally disgraced themselves if they had failed to resist unto death. How, then, can the same patriotic American demand that the Fillipinos should surrender and accept American sovereignty under circumstances exactly parallel?"

Mr. Charles P. Sapp, the talented staff correspondent of the Raleigh News and Observer, who has been sent to delineate the checkered political situation in Kentucky, has interesting letter in today's Observer from Louisville.

The good of the old blue grass commonwealth has been lost sight of by the frenzied supporters of Goebel as well as the bolting gang, and decent politics have descended far below the line of principle to a campaign of mud-slinging, personal bitterness and malice.

When a state's politics are fought out on the line Kentucky's are being fought on, the injury to the public welfare is inestimable.

When the editor of the Charlotte Observer was across the water getting back his health, the scribes left in charge of the paper poured hot shot into the English for the injustice of their war upon the Boers. But since the "old man" has come back the Observer's policy on the South African affair has undergone a sudden reversal in favor of the British.

Mr. Caldwell has been over there eating English bread and drinking their wine, and probably he knows something about the situation that we don't know. Until the affair with the Dutchmen shall have taken on some feature different to our dealing with the Filipinos, the Telegram must stand against our cousins on the other side

---

Brigadier General Fitzhugh Lee arrived at New York yesterday, after having been detained at Hoffman Islands for a day or so for observation by the quarantine authorities, while other passengers on the same boat were allowed to pass quarantine without detention. He was very justly indignant over the affair. But we imagine this little quarantine detention was not nearly so provoking to the general as the "detention" practiced on him by McKinley a few months past.

BRITISH FLEET'S WARNING.

May Form a Flying Squadron to Menace Foreign Powers.

Queenstown, Oct. 25—The British cruisers Pelorus, Furious and Pactolus sailed today for Cape Clear, where they will meet eight battle-ships and two cruisers of the Channel Squadron.

The fleet will proceed ostensibly to Gibraltar, but it is believed the fleet's destination is a Spanish or Portuguese port.

The extensive naval preparations cause a strong reiteration of the rumors of serious foreign complications, and that Great Britain fears Russian or French aggression.

Many naval authorities believe Great Britain intends to form a menacing flying squadron, using the term "menacing," because the naval force at sea now is ample to convoy the transports, and is thoroughly capable of preventing any interference in South African waters.

The Naval Reserves have been ordered to be ready to join their ships on 24 hours' notice, while all the cruisers of the reserve class have been notified to be ready to sail at the same time limit.

The belief that Great Britain is on the verge of a crisis, or even a conflict far greater than that in the Transvaal has many supporters, though the conservative view is that the thorough precautions being taken, though ominous, have no special bearing upon Great Britain's European relations.

Advices from the continent strengthen this view. The Fremdenblatt, of Vienna, today says:

"Nothing points to the eventuality of the intervention of Europe in favor of the Boers. Germany especially has resolved not to depart from her attitude of neutrality."

On the other hand the Neues-Weiner-Tagblatt publishes a telegram from the Transvaal Legation, at Brussels, which is discredited, announcing that Dr. Leyds has received formal assurances that France and Russia will not permit Great Britain to annex the Transvaal or the Orange Free State.

The Russian newspapers may be somewhat responsible for the general impression in regard to European intervention, the St. Petersburg Russkija advocating that Great Britain be brought to her senses by a naval demonstration in South Africa, in which France would take the lead.

Dispatches from the continent to the Daily Mail say that the French fleet has received instructions to watch the movements of the British Mediterranean squadron, and that the Italian fleet is under orders to concentrate in the Bay of Spezia.

Returns for Taxation Last June Amounted to $7,524,453.

Everybody knows that Guilford is one of the very best counties in the state, but we daresay that many of our own people are not fully aware of the great progress made by the county in recent years. We know that new enterprises have sprung up here and there to add to the industrial activity of the community; that the price of farming lands and other property has advanced in many instances; that the schools and colleges of Guilford are better patronized than ever before, and that a strong and growing sentiment for permanent good roads exists. All this is highly gratifying and tends to add to the happiness and contentment of the thrifty people of good old Guilford. An inspection of the tax books of the county will show that this improvement and progress is founded on a solid basis—an increased value of the taxable property. The real and personal property, incomes and bank stock returned for taxation last June amounted to $7,524,453, an increase of $568,744 over the assesment of 1898. This is a most gratifying increase and there are few counties that can make a better showing, when the population is taken into account. Of the aggregate amount returned for taxation $7,320,792 was returned by the white people and $203,661 by the colored people. The three townships making the highest returns are the following: Morehead, $1,879,542; Gilmer, $1,854,229; High Point, $1,196,788. From this it will be seen that these three townships pay more than five-eights of the taxes paid in the county, while Morehead and Gilmer lack but a small sum of paying one-half.

This does not include the assessment of railroad property, which has not been returned for taxation this year on account of the suits pending between the corporation commission and several railroads of the state to determine upon what ratio of valuation taxes shall be paid.

James Reed Injured.

Mr. James Reed struck his leg against a cake of ice in such a manner as to bruise it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physicians, also used several kinds of liniment and two and a half gallons of whiskey in bathing it, but nothing gave it any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House, W. Va. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by C. E. Holton, Druggist.

The woman who puts her head in the lion's mouth, seems the type of reckless women. But she isn't. The really reckless woman is the one who braves Nature day after day, by neglect of the health of the delicate womanly organs. "Crime and punishment blossom on one stem" says Emerson. When the cycle of self-neglect is complete it includes the pains and sufferings which are the inevitable penalties inflicted by outraged Nature. The drain which today is counted an inconvenience, becomes in succeeding days a horrible and offensive stigma. The passing depression of an hour grows into a permanent melancholy.

The timely use of Dr. Pierce's Favorite Prescription will save young women from suffering, as it will cure those who through neglect have become martyrs after marriage. No woman who suffers with backache, pain in the side, bearing down pains, debilitating drains, ulceration or inflammation, should delay another day the use of "Favorite Prescription." Its use *helps* every woman and *heals* ninety-eight per cent. of all who give it a fair trial. It contains no opium, cocaine or other narcotic.

"I was tempted to try your medicines after seeing the effect upon my mother," writes Mrs. Flora Arn, of Dallas, Jackson Co., Mo. "At an early stage of married life I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly. I believe I weigh twice as much as I did then, and can do all of my work. I think I owe all praise to Dr. Pierce and his wonderful curative medicines."

Doctor Pierce's Pellets are specially adapted to the needs of delicate women.

GENERAL LEE WONT TALK.

Cuba and Annexation a Mixup He Doesn't Want to Handle.

New York, Oct. 26—Brigadier General Fitzhugh Lee, who arrived on the steamship Havana on Wednesday was released from quarantine today. He declares he cannot understand why he and his secretary were detained for observation at Hoffman Island while others who arrived on the same vessel were allowed to pass quarantine without detention.

General Lee looked the picture of health. He will proceed to Washington on Sunday and then visit his family in Virginia, where he will remain until he returns to Quemados, his Cuban headquarters, the first week in December.

"Why in the world they took me to Swinburne Island I do not know, but think it was to feel my temperature," said the general. The reporter tried to talk about Cuba but General Lee said:

"Ask me about the Boer war, ask me about the coming election, but don't ask me about Cuba or annexation. Its a mix-up. Sooner than talk about it I'd rather let you take my temperature again."

General Lee said that when he left Havana there were sixteen cases of yellow fever in the city.

CHISEL IN A MAN'S HEAD.

Cold Steel was Tickling His Backbone.

Baltimore, Md., Oct. 25—One of the most peculiar surgical operations ever attempted in this city was successfully performed this forenoon at St. Joseph's Hospital, when Prof. Lewis McLane Taffany, assisted by Dr. Carey Gamble, removed from Charles C. Barker's head a steel chisel 4½ inches long, 1 inch wide and ¼ inch thick.

Mr. Barker is employed by the Geiser Manufacturing Company, Waynesboro, Pa., and was tending a machine which contains two steel chisels, making 1200 revolutions a minute. The machine broke, and the chisels were driven out, making a cut over the bridge of Barker's nose. One chisel was found, but the other one was not. A few days later Mr. Barker suffered partial paralysis, and was brought to St. Joseph's Hospital, where Professor Tiffany with X rays discovered the sharp tool in the man's head, resting against the vertebrae.

Today Barker was chloroformed, an incision made from the under lip up the top of the right side of the nose. The flesh was then laid back, a portion of the superior maxillary removed, and through this opening the chisel was removed.

The gunboat Viking, a converted yacht, has been found unsuited to the navy and has been ordered out of commission.

Funeral services were held over the skeleton of James W. Fowler, who died in a swamp at Vischer's Ferry, N. Y., a year ago.

CABLE TO THE PHILIPPINES.

The Plan Mapped Out by the United States.

Washington, Oct 26—In official and diplomatic circles attention is being directed to the question of a Pacific cable linking this country with the Philippines and points beyond, and it is understood that this government and those foreign governments which would be affected by the cable are now actively considering the subject. The officials here are assembling data and preparing cable maps with the expectation that the matter will be brought to the early attention of congress. In a general way, the project is for a cable of four links, viz: from San Francisco to Hawaii, 2,120 miles; from Hawaii to Wake Island, 2,044 miles; from Wake Island to Guam, 1,293 miles; from Guam to Manila, 1,350 miles.

These landing points are all within the control of the United States, one flag having been raised on Wake Island, not long ago. This would connect all the American possessions in the Pacific by a line crossing no foreign territory. Besides this, the plan permits of an expansion so as to secure two outlets to Asia and the far east. The first of these would be from Manila to the island of Formosa, the Japanese island from which point the Japanese have built a line to the Japan coast and the mainland of Asia. The second oulet would be from Hawaii south to Fanning's island, at which point the newly projected British cable from Vancover to New Zealand crosses.

The foregoing projects have nothing to do with any private enterprises, but would be a government enterprise. It is considered that the government would not be only free from the present high charges and from the supervision of the foreign companies now handling the business, but that the line being opened to the public and commercial uses at a reasonable rate would afford facilities for the expanding trade of the Pacific, and at the same time yield a considerable return to the government. The foreign governments which would be affected by this project—notably, Russia, Japan and Great Britain—are beginning to show some concern over it, and it is understood the government has been sounded of late from several foreign quarters to see what its plans are.

A Mother's Duty

is to see to it that her children begin early in life to shampoo their heads regularly once a week. In each instance, after the hair is thoroughly dry, some mild, health-giving tonic should be applied to the scalp to aid nature in creating the best possible growth of uniformly colored, lustrous, healthy hair—the most important feature in the make-up of beautiful women and handsome men. For more than fifteen years, the

7 Sutherland Sisters' Scalp Cleaner

has stood at the apex of all shampoo washes, while the "Hair Grower" has been equally successful in its efforts to return the injured scalp and almost lifeless to their original healthfulness.

Sacrificed to Blood Poison.

Those who have never had Blood Poison can not know what a desperate condition it can produce. This terrible disease which the doctors are totally unable to cure, is communicated from one generation to another, inflicting its taint upon countless innocent ones.

Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. The little one was unequal to the struggle, and its life was yielded up to the fearful poison. For six long years I suffered untold misery. I was covered with sores and ulcers from head to foot, and no language can express my feelings of woe during those long years. I had the best medical treatment. Several physicians successively treated me, but all to no purpose. The mercury and potash seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. We got two bottles, and I felt hope again revive in my breast—hope for health and happiness again. I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases.

Mrs. T. W. Lee,
Montgomery, Ala.

Of the many blood remedies, S. S. S. is the only one which can reach deep-seated, violent cases. It never fails to cure perfectly and permanently the most desperate cases which are beyond the reach of other remedies.

S.S.S. For The Blood

is purely vegetable, and is the only blood remedy guaranteed to contain no mercury, potash, or other mineral.

DYSPEPSIA

"My wife suffered for many years from Nervous Dyspepsia, Sick Headache, Sleeplessness and Nervous Debility," writes John Kelloes, Philadelphia. "We tried many physicians and numerous remedies, but with no results, until I heard of Johnson's Dyspepsia Cure. We bought six boxes, and the results far surpassed our expectations. She now eats and sleeps well, is gaining in flesh, and her color, which had got to be yellow and sickly, is now as fresh as when we were first married, and I tell her that Johnson's Dyspepsia Cure has made her ten years younger."

PROF. HOLMES' LECTURE

At the State Normal and Industrial College Last Night.

The first of the series of entertainments at the State Normal and Industrial College was a lecture given last night by Prof. J. A. Holmes, state geologist, on the beauties of the Yosemite Valley and the adjacent territory.

Prof Holmes has recently returned from an extensive trip to this part of the country—the national park—and was able, with the aid of numbers of fine stereoptican views, to present very clearly to his auditors some of the features of this land, which, according to scientists, is among the oldest land in the world.

His views and descriptions of the rocks and fossils, ruins of the cave dwellers, scenes along the Yosemite, the falls, Yellowstone Lake, the canon of the Colorado, and the standing rocks, showing clearly the action of the water, supposed to have been going for thousands of years, was entertaining to the fullest degree. He brought with him a few specimens of the most peculiar rocks for the State Normal and the University, secured under difficulties, owing to the persistence with which Uncle Sam guards his treasures, each one of which, he says, represents a fine of one thousand dollars and twelve months in jail(?).

Prof Holmes' second lecture, on the geology of North Carolina, will be given tonight at the college, illustrated, showing some of the scenery of the mountains nearer home. Admission free. A cordial invitation is extended to all to attend.

A number of people from the city were present last night.

A big lot of youth's overcoats at the Fishblate-Katz Co.'s. These goods are of the best material and finish. These goods have remained in the house because they are of a class better than the market demands.

We are now offering these at less than manufacturers' prices. A rare opportunity to pick up a first class garment, at prices usually paid for an inferior article. 3t
